SUMMARY

Reliable and versatile Experienced Cellar Hand with 4 completed vintages across Australia and New Zealand. Specialized in flotation operations with a strong commitment to winery safety and hygiene standards. Proven ability to integrate quickly into diverse teams and maintain high performance operational standards during peak harvest periods. Seeking to leverage extensive harvest experience to support the production team in delivering high-quality wine.

EXPERIENCE

Cellar Hand

February 2026 (Starting) – Present, Blenheim, New Zealand

MATUA (Treasury Wine Estates)

Returning for a third vintage with the company, recognizing high performance and familiarity with site operations.

Flotation Operator & Cellar Hand

January 2025 – April 2025, Griffith, NSW, Australia

Dee Vine Estate Winery

Orchestrated the setup and operation of flotation lines for large-scale juice clarification, managing flow rates and gas injection for optimal turbidity levels.

Monitored fermentation kinetics, executing precise chemical additions (yeast, nutrients, acid) to ensure product quality specifications were met.

Maintained cellar hygiene protocols during peak intake, ensuring sterile transfer lines and safe handling of winery chemicals.

Cellar Hand

January 2024 – May 2024, Tanunda, SA, Australia

CASELLA FAMILY BRANDS (Peter Lehmann Wines)

Operated within the chilling and cellar team during a high-pressure vintage, handling pump overs, rackings, and transfers.

Managed oak barrel operations including filling, emptying, and high-pressure cleaning/sanitizing.

Ensured efficient tanker loading/unloading while strictly adhering to WHS (WorkHealth Safety) regulations.

Flotation Operator & Cellar Hand

February 2023 – May 2023, Blenheim, New Zealand

MATUA (Treasury Wine Estates)

Specialized in white wine processing, operating both continuous and batch flotation units to ensure clean juice for fermentation.

Performed equipment sanitation (CIP) for tanks and lines, ensuring rapid turnaround times during heavy harvest intake.

Mentored junior staff on safety procedures and operational standards during nightshifts.

Flotation Operator

February 2022 – May 2022, Blenheim, New Zealand

MATUA (Treasury Wine Estates)

Assisted in basic cellar operations including juice transfers, tank preparation, and hose management.

Supported flotation setup and monitoring under supervision, gaining exposure to juice clarification processes.

Maintained cellar hygiene standards, including cleaning and sanitizing equipment and work areas.

SKILLS

Flotation Specialization: Expert operation of batch and continuous flotation units (setup, monitoring, troubleshooting).

Cellar Operations: Proficient in pump overs, racking, tank transfers, additions, sparging, and hose management.

Barrel Management: Filling, emptying, high-pressure cleaning, and steaming.

Hygiene Standards: Strict adherence to CIP (Clean-in-place) protocols and tank sterilization.

Safety Awareness: Committed to Work Health and Safety (WHS) regulations and proper PPE usage.
