Cover Letter:

Hello Team,

We are Belu and Marco, an experienced couple team currently based in Blenheim and looking for our next vintage challenge together.

We have chosen this lifestyle because we are passionate about traveling, meeting people from different cultures, and experiencing the unique energy that only a wine harvest can offer. For us, winemaking is not just a job; it is the engine that fuels our journey around the world.

We bring a combined experience of multiple vintages across Australia and New Zealand. We work best as a unit, but we each bring specific strengths to the cellar:

Belu (Tourism Graduate): Specializes in Flotation, her background in Tourism gives her a strong focus on quality and the final consumer experience—she treats the product with respect.

Marco (Rural Administration Technician): Specializes in Cellar Operations and Logistics. His background in administration means he is naturally focused on efficiency, resource management, and machinery operation.

Between us, we cover everything from delicate lab/additions work to heavy machinery operation and hard manual labor. We speak English, Spanish, and Italian, which helps us integrate seamlessly into the multicultural crews we love being a part of.

We are reliable, physically fit, and come with our own transport and European documentation. Thank you for your time!

Best regards,

Belu & Marco.
